GoGreen Plus

GoGreen Plus

GoGreen Plus is a versatile, convenient formulation of sulphur-free complexed iron that gives extended green-up, whilst correcting iron deficiency and hardening turf against the onset of disease.

The unique formulation regulates the release of iron over a longer period to give a sustained effect without the blackening some irons can cause.

GoGreen Plus contains potassium to sustain a hardening effect on turf throughout the autumn, winter and spring. Magnesium combined with a small amount of nitrogen helps to improve the health and appearance of turf, without stimulating rapid growth. In addition, we added a trace element package to GoGreen Plus that includes zinc, copper, manganese, and molybdenum - just to make sure everything stays healthy.

The ability of iron tonics to discourage low levels of Microdochium patch has been recognised for many years. GoGreen Plus is particularly useful in this respect. With this in mind, Agrovista Amenity commissioned a series of trials with the STRI and other independent research organisations to evaluate the benefits of tank-mixing GoGreen Plus with a range of fungicides.

As a result of this work we are able to recommend several tank-mixes that give dramatic improvements to the duration of control of Microdochium patch.

Product information

Key benefits

- Rapid action
- Sulphur free
- Hardens turf against disease
- Surfactant/iron for dew control

Pack size: **5 and 200 Litre**

Specific gravity: **1.27**

Application timings

Application rates

Application rate	Water rate
20 -40 L/ha	600-1000 L/ha

Product analysis

Analysis	% w/w
Nitrogen (N)	2.0
Potassium (K)	6.0
Iron (Fe)	4.8

Nutrient inputs

Application rate	Nutrient input (kg/ha)		
	N	P	K
Rate L/ha			
20	0.4	-	1.2
40	0.8	-	2.4

Approved tank-mixes

GoGreen Plus (20L/ha) can be tank-mixed with a wide range of products including the below. For more information on tank-mixing speak to your local area representative.

Product	Application rate	Product	Application rate
Dualitas	1L/ha	E ² Pro Liquids	Various
Heritage WG	500g/ha	E ² Pro PhosRite	5-10L/ha
Medallion TL	3L/ha	Seavolution	20L/ha
Primo Maxx II	Various	Magflo300	2L/ha
K-Max	30L/ha
