APPLICATION GUIDELINES

GoGreen Energy may be used at any time of the year providing the turf surface is dry and rainfall is not imminent. Do not apply in frosty conditions.

GoGreen Energy is especially effective on fine turf or course grasses. Ideal for Stadia use as a pre game application for presentation. For best results cut grass before application. Repeat applications may be made as often as necessary to maintain the desired effect (on average every four to six weeks).

MIXING

Half fill the sprayer tank or watering can with clean water. Add the required amount of GoGreen Energy and mix thoroughly whilst adding the remainder of the water.
