

APPLICATION GUIDELINES

GoGreen Select may be used at any time of the year providing the turf surface is dry and rainfall is not imminent. Do not apply in frosty conditions. GoGreen Select is especially effective on fine turf or coarse grasses. For best results cut grass before application. Repeat applications may be made as often as necessary to maintain the desired effect (on average every four to six weeks). This product can be used as a stand-alone product, or within a tank mix. GoGreen select is fully compatible with the following selective herbicides.....

MIXING

Half fill the sprayer tank with clean water. Add the required amount of GoGreen Select and mix thoroughly, add the remainder of water, if applicable add the selective herbicide and then agitate thoroughly. Always use the water rate recommended on the herbicide label.
