6 months after

Benefits of Katana®

Katana® is a broad spectrum herbicide the activity delivers a long period of residual control of both broad leaved weeds and grasses which offers local authorities and contractors a positive way of reducing costs, whilst still maintaining effective weed control.

Areas of use:

- Broad spectrum total weed control for upto 5 months
- Operational cost reduction - lower labour costs
- Proven and trusted results
- Glyphosate reduction strategy
- Full product support and on site training available
