

RED FLAG

Spray Tank Cleaner

1 Kg

Red Flag is a soluble spray tank cleaner which removes pesticide deposits and other debris including oily substances from: Tanks, Booms, Hoses, Filters & Nozzles.

The control of substances Hazardous to Health (COSHH) Regulations may apply to the use of this product at work.

STATUTORY CONDITIONS RELATING TO USE

Engineering control of exposure must be used where reasonably practicable in addition to the following personal protective equipment.

Do not take by mouth. In case of eye or skin contact flush with plenty of water and seek medical attention if irritation persists.

WEAR SUITABLE PROTECTIVE GLOVES AND FACE PROTECTION (FACE SHIELD) when handling the concentrate.

However, engineering controls may replace personal protective equipment if a COSHH assessment shows they provide an equal or higher standard of protection.

To avoid risks to man and the environment comply with instructions for use.

Safety Data Sheets available on request for professional users.

Read all precautions before use.

WARNING

Precautionary serious eye irritation

Wash thoroughly after use. Wear protective gloves/protective clothing/eye protection/face protection.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

RATES OF USE: Use Red Flag at a rate of 1Kg per 800 litres of washout solution.

Cleaning Procedure – for full spray tank

1. Immediately after spraying, drain main tank completely. Any contamination on the outside of the spraying equipment should be removed by washing with clean water.
2. Rinse inside of tank with clean water and flush through boom and hoses using at least one-tenth of the spray tank volume. Drain tank completely.
3. Half fill tank with clean water and add Red Flag at the recommended rate. Agitate and then flush the boom and hoses with the cleaning solution. Top up with water making sure the tank is completely full and allow to stand for 15 minutes with agitation. Again flush the boom and hoses and drain the tank completely.
4. Nozzles and filters should be removed and cleaned separately with a solution containing 50 grams of Red Flag per 10 litres of water.
5. Rinse the tank with clean water and flush through the boom and hoses using at least on-tenth of the spray tank volume. Drain tank completely.
6. For disposal of washings follow the Code of Practice for the Safe Use of Pesticides.

Note: If it is not possible to drain the tank completely, step 3 must be repeated before going to step 4.

Cleaning Procedure – for using washout tanks

1. Immediately after spraying, drain main tank completely.
2. Add Red Flag at the recommended rate to at least one-tenth of the spray tank volume.
3. Agitate and flush the spray tank for 15 minutes before flushing boom and nozzles and wash any contamination from the outside of the sprayer.
4. Nozzles and filters should be removed and cleaned separately with a solution containing 50 grams of Red Flag per 10 litres of water.
5. For disposal of washings follow the Code of Practice for the Safe Use of Pesticides.

Note: If it is not possible to drain the tank completely, step 3 must be repeated before going to step 4.

CONDITIONS OF SUPPLY: No responsibility will be accepted by us or re-sellers for any failure in performance, damage or injury arising from their storage, handling, application or use of these goods. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods.
