AMENITY PRODUCTS

PRODUCT SAFETY DATA SHEET

MULTIGREEN

1. Identification of the substance/mixture and of the company/undertaking:

1.1 Product identifier:

MULTIGREEN 30+5+14	MULTIGREEN 20+0+32
MULTIGREEN 28+3+15+2MgO	MULTIGREEN 28+0+0+3MgO
MULTIGREEN FINE 25+5+14+2MgO	MULTIGREEN FINE 19+0+30
MULTIGREEN MINI 24+0+24	MULTIGREEN MINI 12+0+44
MULTIGREEN 15+0+22+5MgO	

1.2 Relevant identified uses of the substance or mixture and uses advised against:

Horticulture / Amenity fertiliser

1.3 Details of the supplier of the safety data sheet:

Headland Amenity Ltd,
1010 Cambourne Business Park,
Cambourne
Cambridgeshire
CB23 6DP
Tel : +44 (0) 1223 597834
Fax - +44 (0) 1223 598052
e-mail info@headlandamenity.com

1.4 Emergency telephone number:

Tel : +44 (0) 1223 597834

2. Hazards Identification:

2.1 Classification of the substance or mixture;

This mixture is not classified as harmful to humans or the environment according to Directive 1999/45/EC and statutory instrument No.716 2009 Chemicals (Hazard Information and Packaging) regulation)

2.2 Label elements:

There are no statutory labelling requirements under Directive 1999/45/EC as the mixture is not classified as harmful to humans or the environment

2.3 Other hazards:

None Known

3: Composition/information on ingredients:

3.2 Mixtures

No specific information on individual components is given as the mixture is not classified as harmful to humans or the environment.

The Multigreen products are a range of Controlled Release fertilisers

4. First Aid Measures:

4.1 Description of first aid measures:

Eyes:	Rinse eyes slowly and gently with water. If irritation persists seek medical attention.
Skin:	Wash thoroughly with soap and water. Seek medical advice if any irritation persists or develops later.
Ingestion:	May cause irritation to the gastro-intestinal tract. Do not induce vomiting. Give water or milk. If patient feels unwell seek medical attention.
Inhalation:	Remove from source of exposure into fresh air. May cause irritation. Seek medical attention if any effects are observed.

4.2 Most important symptoms and effects, both acute and delayed:

No further information available

4.3 Indication of any immediate medical attention and special treatment needed:

On inhalation of decomposition products:

Risk of pulmonary oedema. Symptoms can appear later. Danger of methaemoglobin formation.

Treatment

Treat according to symptoms (decontamination, vital functions), treat with toluonium chloride to reverse methaemoglobin anaemia

5. Fire Fighting Measures:

5.1 Extinguishing Media

Mixture is not classified as flammable. Use suitable extinguishing media as appropriate for surrounding materials

5.2 Special hazards arising from the substance or mixture

At temperatures above 130°C, dangerous decomposition gases can be emitted – Nitrogen monoxide, nitrogen dioxide, dinitrogenoxide, ammonia.

5.3 Advice for fire-fighters:

Suitable protective clothing and breathing apparatus.

6. Accidental Release Measures:

6.1 Personal precautions, protective equipment and emergency procedures:

Prevent contact with skin or eyes. Use coveralls and chemical resistant gloves with eye protection as necessary.

6.2 Environmental precautions:

DO NOT wash excessive spillages into water courses. If this product enters water course or sewer (including via contaminated soil and vegetation) in large quantities, contact local agency and/or police immediately.

6.3 Methods and material for containment and cleaning up:

Sweep carefully into suitable container for re-use or dispose at an approved site. Small spillages should be washed thoroughly with water.

6.4 Reference to other sections:

No reference

7. Handling and storage:

7.1 Precautions for safe handling:

When using, DO NOT eat, drink or smoke. Open container with care to avoid generating dust. Keep away from heat and sources of ignition. Keep away from combustible material.

7.2 Conditions for safe storage, including any incompatibilities:

Store in a cool, dry atmosphere in original, labelled containers.

DO NOT store in metal or alloy packaging

Keep away from food, drink and animal feeding stuffs.

Refer to manufacturer for maximum safe stacking height.

7.3 Specific end use(s):

No further information available

8. Exposure controls/personal protection:

8.1 Control Parameters

Occupational Exposure limits

	EU OEL (Europe)	
Mono-ammonium phosphate	TWA 5mg/m ³ 8hour(s)	Form: Dust

8.2 Exposure Controls

Good general ventilation should be used.

Primary Hazard considered handling as concentrate.

Breathing apparatus only if dust is formed. Particle filter EN143 Type P1, low efficiency, (solid particles of inert substances)

Gloves: BS EN374 – chemical protection : physical barrier protection only.

Eye protection: goggles/face shield to BS EN166

9. Physical and Chemical Properties:

9.01 Appearance:	Brown to grey granules depending on formulation
9.02 Odour:	Mild, slightly ammoniacal
9.03 pH:	Approximately 5 at 100g/l (20°C)
9.04 Boiling Point / Range	Information not available
9.05 Flash Point / Flammability:	Not classed as flammable
9.06 Explosive Properties:	Not classified as explosive
9.07 Oxidising Properties:	Not classified as oxidising
9.08 Vapour Pressure:	Information not available
9.09 Relative Density:	Bulk density varies from 0.76g/ml to 1.150kg/m ³ depending on formulation
9.10 Solubility:	Uncoated portion is lowly water soluble. Polymer coating is insoluble in water
9.11 Partition Coefficient:	Information not available
9.12 Viscosity:	Information not available
9.13 Vapour Density:	Information not available
9.14 Evaporation Rate:	Information not available

9.2 Other Information

No other relevant information available

10. Stability and Reactivity:

10.1 Reactivity:

Not known.

10.2 Chemical Stability:

Stable under normal conditions.

10.3 Possibility of hazardous reactions:

Not known.

10.4 Conditions to avoid

DO NOT overheat. Thermal decomposition takes place at 130oC.

10.5 Incompatible materials

Sulphur, chlorites, chloride, chlorates, Hypochlorites, acid or alkaline-reacting substances, flammable oxidisable substances, nitrites, metallic salts, metallic powder, herbicide, chlorinated hydrocarbons, organic compounds.

10.6 Hazardous decomposition products

Nitrogen monoxide, nitrogen dioxide, dinitrogenoxide, ammonia

11. Toxicological Information:**11.1 Information on toxicological effects:**

This mixture has not been assessed as the mixture is not classified as harmful to humans or the environment.

12. Ecological Information**12.1 Toxicity:**

Not classified as harmful to the environment in accordance with the CHIP regulations 2009 and 1999/45/EC.

12.2 Persistence and Degradability:

Information not available

12.3 Bioaccumulative potential:

Information not available

12.4 Mobility in soil:

Information not available

12.5 Results of PBT and vPvB assessment:

Mixture not assessed

12.6 Other adverse effects:

No other adverse effects known

13. Disposal Considerations:**13.1 Waste treatment methods:****Disposal of Used Preparation:**

Apply as fertiliser to field. If product is contaminated, dispose of in an appropriate disposal facility.

Disposal of Packaging:

An empty container can contain product residue and should not be re-used. Use specialist waste contractor in accordance with local regulations.

14. Transport Information:**Road and Rail/Sea/Air**

Information not required as mixture not regulated for carriage.

UN number:

UN proper shipping name:

Transport hazard class(es):

Packing group:

Environmental hazards:

Special precautions for user:

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC code:

15. Regulatory Information**15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:**

This mixture is classified and labelled in accordance with Directive 1999/45/EC, Regulation 1272/2008, the statutory instrument No.716 2009 Chemicals (Hazard Information and Packaging) regulations and the EU fertiliser regulations 2003/GB fertiliser regulations 1991.

15.2 Chemical Safety Assessment:

CSA not undertaken for this mixture.

16. Other Information

The above information is intended to give health and safety guidance on the storage and transport of the substance or product to which it relates. It is not intended to apply to the use of the product, for which purpose the product label and any appropriate technical usage literature available should be consulted and any relevant licences, consents or approvals complied with. The requirements or recommendations of any relevant site or working procedure, system or policy in force or arising from any risk assessment involving the substance or product should take precedence over any of the guidance contained in this safety data sheet where there is a difference in the information given. The information provided in this safety data sheet is accurate to the best of the issuer's available knowledge at the date of publication, and will be updated as and when appropriate. No liability will be accepted for any loss or damage resulting from any failure to take account of information or advice contained in this safety data sheet.

Reason For Update:

MSDS has been re-written to reflect the new format given in Annex I of the REACH regulation 453/2010

Headland is a registered trademark of Headland Agrochemicals
Multigreen is a registered trademark of Haifa Chemicals Limited
